The following is an examiner's statement of reasons for allowance: Claim 1 is allowable because the teachings of the prior art taken as a whole do not show or render obvious the combination set forth, including: a pair of roller bearings arranged separate from each other in the axial direction between the outer circumferential surface side of the spool shaft and the inner circumferential surface side of the rotary cylinder shaft.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
